

NuDiVeR

Nuclear Disarmament
Verification

Disarmament Verification in Virtual Reality

- ▶ Virtual Reality implementation of the NuDiVe exercise in support of the IPNDV
- ▶ Multiple users can exercise nuclear disarmament procedures over the internet
- ▶ Adaptable to other non-proliferation applications and scenarios

Implements all major inspection technologies:

Makes the benefits of exercises more accessible:

- ▶ Research and development of tailored inspection regimes for future treaties
- ▶ Demonstration of viable and practical inspection procedures
- ▶ Training of a new generation of verification experts
