The **European School of Sustainability Science and Research (ESSSR)**, coordinated by the Research and Transfer Centre "Sustainable Development and Climate Change Management" at the Hamburg University of Applied Sciences (HAW Hamburg), is the largest European network for advancing sustainability research.

AIMS

ESSSR supports the implementation of the 2030 Agenda for Sustainable Development by:

- Providing a **platform for universities** to discuss the contribution of sustainability teaching and research to the implementation of the SDGs;
- Mobilizing universities to engage, consult and implement joint initiatives towards sustainable development;
- Contributing to the education of the next generation of **sustainability scientists**.

ACTIVITIES

ESSSR undertakes activities focusing on the following main areas, all associated with sustainability science:

MEMBERSHIP OPTIONS

Regular ESSSR Members have access to the network's news and opportunities regarding publications, events, and projects, and have the possibility to share news from their institutions with the other members.

Premium ESSSR Members have access to all the opportunities offered to Regular Members, plus a set of benefits, such as the status of priority partners to receive news and opportunities, member-only discounts, no project preparation costs, organisation of scientific conferences, advice and support, and much more. Please contact our team for more details.
