

Application for a scholarship for international students at the HAW Hamburg

Dear Professor,

This letter of recommendation is one of the documents students must submit if they wish to apply for one of our scholarships for international students. The principal funder of the scholarships, the Hamburg Ministry for Science, Research and Equality, has specifically requested we take into account the views of professors when awarding scholarships. We have confidence in your academic evaluation of the candidate and very much appreciate your help.

With best regards

International Office
