

Studiengang Pharmaceutical Biotechnology (Master of Science))

1. Semester

start at winterterm:

- Biopharmaceutical Engineering
- Purification Techniques
- Pharmaceutical Technology
- Cell Culture Systems
- Biopharmaceutical Research

start at summer term:

- Bioanalytics
- Bioprocess Automation
- Process Simulation
- Biopharmaceutical Research

2. Semester

start at winterterm:

- Bioanalytics
- Bioprocess Automation
- Process Simulation
- Biopharmaceutical Research

start at summer term:

- Biopharmaceutical Engineering
- Purification Techniques
- Pharmaceutical Technology
- Cell Culture Systems
- Biopharmaceutical Research

3. Semester

Master Thesis over 26 weeks
