**Dear colleagues and interested parties,**

We are pleased to invite you to participate in the conference on "Migration and Social Work in Germany: Access of EU Citizens to the German Social Welfare System", organised in the framework of the Erasmus+project "Transnational Social Services (TSS)" in cooperation with Diakonie Hamburg and the Hamburg University of Applied Sciences in Germany, as well as the Bulgarian-Romanian Institute for Cross-Border Mediation and the Institute for Population Research (IPHS) at the Bulgarian Academy of Sciences in Bulgaria. The TSS project brings together institutions and experts from Bulgaria and Germany to exchange information on support needs and measures for mobile EU citizens and to promote the networking of counsellors. The conference combines theoretical and practical questions on the context in which mobile immigrants move in Germany: legal framework, social policy, institutional responsibilities at regional and local level, daily practice and case studies that social workers encounter in Germany. The event raises the question of how social work can be supported in a transnational context and what social workers need to know about each other for their counselling work.
