

## What our exchange students say

»In my opinion, Hamburg is one of the most beautiful cities in Germany. When you enjoy a drink in the Tower Bar you have an unbelievable view of the harbour, the Elbe and the roof tops of Hamburg.«

- Shanti, Netherlands

»What makes study abroad really special is meeting so many people from so many different countries, visiting different countries and experiencing different cultures. Study abroad has made me a more well-rounded student.«

- Connor, USA

»The professors at the HAW Hamburg have all worked in industry and have a lot of knowledge because of this. They can explain why the things you learn in class are relevant for your later working life.«

- Cheuk Ho, Hong Kong

»The friends I made in Hamburg became like a family to me. The relationships I built with people of very different cultural backgrounds made me more aware of my own culture.«

- Omar, Mexico

»As part of my classes I visited the Airbus Hamburg site. It was incredible to see the company and its production facilities from the inside, from the perspective of the engineers working there.«

- Vanessa, Australia

## Costs

**Tuition/Semester contribution:** Exchange students from partner universities do not have to pay tuition in Hamburg. All students will be charged a semester contribution of 279 Euros (Sept. 2016). For this money you will get a semester ticket which allows you six months unlimited travel on Hamburg's public transport system.

**Health insurance:** Students from non-EU countries must also register for German health insurance. This costs 80 Euros per month and is for a full semester.

## Services & Activities

**Accommodation:** Generally we can provide you with a single room in a shared apartment in a student residence. Monthly rent is 265 – 365 Euro.

**weBuddy Programme:** A German student will be your »buddy«. He/she will collect you at the airport/station, take you to your residence and help you settle in. A Hamburg orientation programme will help you get to know the city and events during the semester will help you build a network of great friends.

## Application and information

Courses can be subject to change. For course descriptions, a current list of courses and other important information: [www.haw-hamburg.de/studyabroad](http://www.haw-hamburg.de/studyabroad)

To apply to study abroad in Hamburg, please contact the Education Abroad Office at your home university.

### Application deadlines:

30. April: for the winter semester,  
30. October: for the summer semester

## Hamburg University of Applied Sciences

With over 16,000 students Hamburg University of Applied Sciences is the second largest institution of higher education in the Hamburg region and one of the largest of its kind in Germany. Practice orientation is our trademark and small groups, interdisciplinary projects and academic support ensure that our students feel at home at our university. 2,000 international students study here, representing over 100 nations. Our international guest students come from partner universities throughout Europe as well as from North and South America, Australia, Asia and the Middle East.

## Hamburg – City on the water

In the north of Germany, in the heart of Europe – Hamburg is Germany's second largest city (1.8 million inhabitants) and offers excellent quality of life and international flair. If you like to spend your leisure time out of doors, then you will love Europe's »greenest« city with its large lake and numerous canals in the centre of town. You will also find culture in all its variations as demands a major city – theatre, museums, exhibitions as well as music – in concerts and clubs. And its international airport links Hamburg to lots of cities throughout Europe.

For more impressions of the city of Hamburg visit:

# HAMBURG STUDY ABROAD INTERNATIONAL PROGRAMMES

## Courses in English

Hamburg University of Applied Sciences  
[www.haw-hamburg.de/studyabroad](http://www.haw-hamburg.de/studyabroad)

## Media & Film

- Artistic Composition 2
- Camera Acting Project (Short Cut)
- Perception
- Practice Dramaturgy
- Sound Design
- Studio Hamburg Project
- Video Technology & Production
- Video or Audio Project

Classes can be a mixture of German and English, but you do not need German to complete the classes. Most courses are project-based.

winter (Sept. – Feb.) and summer (March – July) semester

## International Business

- International Accounting & Taxation
- International Business Law
- International Capital Markets
- International Corporate Finance
- International Economics 2
- International Human Resource Management
- International Management
- International Marketing
- International Organisation & Cooperation
- International Trade & Logistics, FDI
- Academic Research & Writing
- Country Studies
- Intercultural Communication & Competence
- Project Work

winter (Sept. – Feb.) and summer (March – July) semester

## Aeronautical Engineering

- Aircraft Design
- Aircraft Engines
- Aircraft Systems
- Architecture of the Aircraft Cabin
- Electrical Aircraft Cabin Systems
- Mechanical Aircraft Cabin Systems
- Aeronautical Engineering research - individual project
- Aeronautical Engineering Design - team project

Where capacity and schedules allow, it is also possible to combine these classes with a class from the automotive or mechanical engineering programmes.

summer (March – July) semester only

## Mechanical Engineering

- Energy Systems
- Finite Elements
- Machine Cutting Technology
- Systematic Product Development
- Technical Thermodynamics 1

Where capacity and schedules allow, it is also possible to combine these classes with a class or two from the aeronautical or automotive engineering programmes.

summer (March – July) semester only

## Computer Science

- Computer Graphics
- Databases
- Lab for Application Integration (HAWAI)
- Modelling & Simulation research project
- Operating Systems
- Seminar (Bachelor)
- Software Construction 2
- Software Engineering

This programme is a collaboration between the Department of Computer Science and the Department of Information & Electrical Engineering.

summer (March – July) semester only

## Life Sciences Engineering

- Advanced Control Systems
- Applied Limnology
- Instrumental Analysis
- Mathematics 3
- Particle Technology
- Pharmacology/Toxicology
- Photovoltaic Applications
- Plant Engineering
- Protein Preparation/Preparative Chromatography
- Project Management
- Sustainable Energy Economics

These are classes from our Bachelor's engineering programmes in the Faculty of Life Sciences.

summer (March – July) semester only

## Design & Art

- Book Illustration\*
- Brand Design
- Design Theory
- Drawing
- Editorial Design\*
- Fashion Design\*
- Interaction Design\*
- Interactive Illustration & Games
- Painting\*
- Photography\*
- Textile Design
- Type Design

\* in German with an English tutorial. The other classes, with the exception of Design Theory, are a mixture of English and German. In all cases you do not need German to complete the classes.

winter (Sept. – Feb.) and summer (March – July) semester

## Social Work

- Child Abuse & Neglect
- Child Protection & Family Treatment
- Children's Books
- Digital Natives - youth & digital media
- Future of Social Work
- Mental Health & Recovery
- Organizational & System Development
- Morality, Social Justice & Principles of Human Relationships in modern societies
- Social Policy in the European Union
- Qualitative & Quantitative Research Methods

This semester programme is based on lectures from our Bachelor programmes Social Work and Education & Learning in Childhood.

summer (March – July) semester only

## Automotive Engineering

- Introduction to Body in White Design
- Introduction to Commercial Vehicle Design
- Introduction to Vehicle Dynamics
- Drive Train Design
- Finite Element Method (FEM)
- Automotive Engineering Design - team project
- Automotive Engineering research - individual project

Where capacity and schedules allow, it is also possible to combine these classes with a class from the aeronautical or mechanical engineering programmes.

summer (March – July) semester only

## Information Engineering

- **Winter semester (Sept. – Feb.)**  
Algorithms & Data Structures, Digital Circuits, Economics & Management, Electrical Engineering 1, Elective course 1 & 2, Elective project, Electronics 2, German, Learning & Study Methods 1, Mathematics 1, Signals & Systems 1, Software Construction 1

- **Summer semester (March – July)**  
Bus Systems & Sensors, Databases, Digital Communication Systems, Digital Signal Processing, Digital Systems 1, Elective project, Electrical Engineering 2, Electronics 1, Intercultural competence, Learning & Study Methods 2, Mathematics 2, Microcontrollers, Operating Systems, Software Construction 2, Signals & Systems 2, Software Engineering

winter (Sept. – Feb.) and summer (March – July) semester

## Digital Information & Media

- Digital Culture and Critical Theory
- International Communication Systems
- Knowledge Organization
- Search Engine Technology and Search Engine Use
- Social Media and Innovation

These classes are taken from our Media & Information Bachelor's degree programme and make up a 30 ECTS semester programme.

summer (March – July) semester only

## Nutrition & Health

- Consumer Behaviour
- Eating Behaviour
- Food Marketing
- German Food and Culture
- International Human Resource Management & Leadership
- Marketing Research
- Project Management
- Public Health Nutrition
- Public Health Project
- Quality of Nutrition and Hygiene in Catering Services
- Scientific Ergonomics with lab
- Sensory Analysis
- Working in multi-cultural groups
- Academic English / Basic German

summer (March – July) semester only
