Supplementary risk assessment form D4-1: Risk of contact with SARS-CoV-2 through meetings and non-teaching events

Risk assessment pursuant to Section 5 of the Arbeitsschutzgesetz (Act on the Implementation of Measures of Occupational Safety and Health)

The risk assessment applies to events and is intended as a supplement to existing risk assessments.

Risk assessment carried out by: _____________________________
Convenor: _____________________________
Date / Signature of convenor: _____________________________

Objective of the risk assessment and of the action to be taken as a consequence of the risk assessment

Avoiding transmission of SARS-CoV-2 and breaking chains of infection with Covid-19.

Documentation and storage of risk assessment

Once the risk assessment is conducted and those in attendance at the meeting/event have been informed of the action required of them and issued with corresponding instructions, the risk assessment form, signed by the convenor of the meeting/event, shall be placed on file by the person who carried out the risk assessment. This person shall also send a copy of the form to the department or unit responsible for allocating the room for the meeting/event (e.g. Dean's office or the room management unit within the HAW Hamburg central administration).

Advice and support

You can obtain advice and support with conducting the risk assessment from the occupational health and safety specialists from the Occupational Safety Unit (AKU): (arbeitsschutz@haw-hamburg.de).

### 1. Fundamental organisational measures

Notice of the meeting has been given to the relevant Dean's office or to the room management unit of the central administration.

Under the current Hamburg Covid-19 Containment Ordinance, event participants are required to present proof of a negative corona test result.

If the answer to the previous question was ‘no’, please explain in more detail here:

Minimum physical distancing of 1.5 m can be maintained throughout the meeting/event by all those present.

The convenor is aware of the FAQs on the HAW Hamburg website ([https://www.haw-hamburg.de/en/university/coronavirus-updates/](https://www.haw-hamburg.de/en/university/coronavirus-updates/)) and has taken them into account in planning the meeting/event.

The attendees have been informed that they are required to notify the convenor immediately if they test positive for Covid-19 within 14 days of the meeting/event.

### 2. Management of the meeting/event

Attendees’ contact information will be collected via the ‘darfichrein.de’ app or a participant list.

All attendees confirm they are present with their signature.

If the contact information is collected in a list, this list will be destroyed after four weeks.

The convenor informs those present of the following:

- The requirement to comply with the regulations set out in HAW Hamburg’s Framework Hygiene Plan ([follow the link at](https://www.haw-hamburg.de/en/university/coronavirus-updates/)).
- The requirement to maintain a minimum physical distance of 1.5 m from others.
- In enclosed rooms, all those present (except the presenter/speaker) are required to wear medical masks (surgical or FFP2).
- All those present should use the hand sanitiser provided at the entrance to the building, or wash their hands thoroughly before entering the room.
- All those present must observe coughing and sneezing etiquette.

Notices in the building will reinforce the messages.
### Risk: Contact with SARS-CoV-2

#### Risk mitigation measures

<table>
<thead>
<tr>
<th>Done/ applies</th>
<th>n/a</th>
<th>To be implemented by</th>
</tr>
</thead>
<tbody>
<tr>
<td>yes</td>
<td></td>
<td>Convenor</td>
</tr>
<tr>
<td>no</td>
<td></td>
<td>Convenor</td>
</tr>
</tbody>
</table>

#### 3. Further technical and organisational measures

- The number of participants will be determined in such a way as to enable participants to maintain the minimum physical distance of 1.5 m.
- If the room has a technical ventilation system, the windows must remain closed throughout the meeting/event.
- If ventilation of the room relies on the windows and there is no technical ventilation system, the room must be aired out by opening all windows as wide as possible every 20 minutes.
- If the room will be used by different groups of people on the same day, it must be cleaned between uses.
- There is a minimum distance of 2.5 m between the stage/podium/panel and the audience.
- There are Covid-secure procedures in place for entering and leaving the room.
- Where appropriate, the convenor should institute a one-way or other appropriate system for entering and leaving the room and signpost it on the floor.

#### 4. Supplementary information

If the obligatory protective and hygiene measures outlined above cannot be implemented/upheld, the event cannot be carried out.

This risk assessment does not apply to events with increased levels of respiratory emissions (e.g. singing, yelling). Such events are currently not permitted on HAW Hamburg premises.

**Optional appendices to the risk assessment (e.g. diagram of furniture/seating, photo of even location, further information, etc.)**
